COUNTERPART

Negotiators & senior officials · Singapore

Portfolio: Negotiation teams across all tracks

Public background: Internal coordination meeting; not on the public record.

MAIN TALKING POINTS

1. Confirm the three priorities: mitigation ambition, Article 6 operational rules, and adaptation support for partners.
2. Restate the red line: no new quantified finance commitments beyond the approved envelope.
3. Assign leads for each negotiating track and set the evening report-back time.

WATCH POINT — THE ONE THING TO AVOID

Don't let the session reopen settled internal positions — this is for direction, not debate.

IF ASKED / PRESSED

Track leads hold delegated authority within the agreed mandate; escalate anything beyond it to the Minister.

ANTICIPATED QUESTIONS

If finance talks stall, is there flexibility on the timing of disbursement language? INTERNAL

Why it may come up: Finance is expected to be the week's crunch point and officials will want a fallback; the mandate fixes the envelope but is silent on sequencing.

- Envelope is fixed; sequencing/timing may be explored at officials level without new commitment.

INTERNAL

- Any movement returns to the Minister before it is tabled. INTERNAL

How should the delegation handle media approaches during the week? INTERNAL

Why it may come up: ~~High-visibility week; consistent lines prevent mixed messaging across the team.~~
