Technical

Integrity red line

OBJECTIVE

Push to conclude operational Article 6 rules with high environmental integrity.

TONE

Technical but accessible, constructive, firm on integrity.

COUNTERPART

Article 6 co-facilitators & parties

Ministerial consultation · Multilateral

Portfolio: Carbon markets · Article 6.2 / 6.4

Public background: Ministerial consultations on Article 6 are convened by the presidency; outcomes are reported publicly.

Public sources: Presidency consultation notes

MAIN TALKING POINTS

1. Support concluding the Article 6.4 mechanism rules at this COP.
2. Insist on robust integrity: no double counting, transparent registries.
3. Offer Singapore's experience with bilateral carbon-credit agreements as a practical model.

WATCH POINT — THE ONE THING TO AVOID

Do not trade away integrity safeguards for a faster deal.

IF ASKED / PRESSED

Singapore wants an outcome, but only one that protects environmental integrity.

ANTICIPATED QUESTIONS

Will Singapore accept weaker integrity provisions to land a deal? BOTH

Why it may come up: Endgame pressure to close often targets integrity 'flexibilities'; Singapore's red line is integrity.

- Integrity safeguards are a red line; no trade for speed. INTERNAL
- Some parties publicly favour more flexible rules (indicative). PUBLIC

Can Singapore share its bilateral carbon-agreement model? BOTH

Why it may come up: Singapore has publicly signed several bilateral carbon-credit agreements, making it a credible reference point.
